Why shop local?

When you support a local business, you're also supporting our town, city, and neighborhood. These businesses pay sales taxes to the city and county the business is located in so our tax dollars stay local, going towards public services, our schools and library.

Small businesses go beyond writing a check to a local cause. They're more likely to develop partnerships and strengthen ties with people in the neighborhood. Brick and mortar establishments can serve as community hubs, like the local restaurant sponsoring 'Shop with a Cop' or the bakery a brat fry for a family in need.

Family owned businesses tend to treat their employees like extended family. As a result, people who work for family owned businesses take ownership of the service and value they deliver. They care about their company, their community and their customers.

Sure, we all love and go to the mainstream retailers, but can you imagine what it would be like to live in a place with nothing but strip malls? By shopping local, we're making sure independent businesses thrive by adding to the vibrancy and uniqueness of a community.

Check out all the local businesses that work directly with our scrip program.

Stop in the office every day during office hours, send me an email or call me with your order. I'll only take a minute or two!

When you do, remember the locals that might be struggling right now.
